

2019

2-Day

LEADERSHIP BY DESIGN

Program

Designed For Leaders Of People, Culture And Growth

About The Program

This is without a doubt one of Australia's premier leadership development initiatives.

With 8 x 1½ hour, power-packed sessions, covering the most challenging and exciting issues facing today's contemporary leaders, and an 8 week digital challenge program, delegates will have a renewed mindset and a revitalised and positive outlook about their leadership role.

The program looks at a range of topics including, personal and people management strategies and also provides concepts and templates that can be implemented immediately back in to the workplace.

This is a program suited to those people currently in a leadership position and for those wanting to pursue leadership as a career.

At Proteus Leadership, we believe that professional development should meet the Four Cornerstones Of Learning:

1. **Inspiration**
2. **Knowledge**
3. **Support**
4. **Connection**

This program has been designed to do exactly that.

It is not only for individuals, but has also been tailored for teams who are looking to change the culture, the attitude and the behaviours within their workplace.

By participating in this program, you will be able to select the skills and insights that are relevant to you and then design your own leadership experience.

This is not just another training program, but truly a leadership experience that will change the way you think about what you do and how you do it.

Leadership By Design will reignite your passion for leadership.

Testimonials

“The course delivery and content was so engaging that it cut through my somewhat jaded/tired attitude on arrival and I became an active participant. The course challenged me to re-assess what is and isn't within my sphere of control or influence, and helped me to recognise that my contribution as a leader extends beyond my current role to my future contributions in other areas of the workforce.”

Shona Batge - Australian National Audit Office

“My previous experiences of leadership learning have focused on the theoretical. The Leadership by Design course was more practical and this in turn made it motivational. It was easy to see where I could apply the tools I was taught and I felt each tool had a place in my workplace experience. I'm keen to start making simple changes in my everyday to impact on my leadership style and my workplace.”

Joanna Rae - Camden and Campbelltown Hospitals

Digital Challenges

1. Getting Started

On registration, participants will receive confirmation of their booking followed by a second email 2 weeks before the program with a password and link for the digital component of the program.

Participants will be asked to create their profile and read and action any program prerequisites before attending the face-to-face days.

2. Face-To-Face

Participants will attend two face-to-face days and will be provided with an extensive program manual. Our expert facilitators will work with participants to get the most from these two powerful days.

3. The Digital Challenge

After completion of the two face-to-face days, participants will be required to complete the digital evaluation.

Participants will then receive a weekly challenge, by email for the next 8 weeks, that will allow them to log in on the device of their choice and complete their challenges.

At the end of the 8 week period, all submitted responses will be automatically populated to create a Live IT! Challenge Document, to be shared with their manager.

Once this document is complete and has been downloaded, then participants will be able to print a personalised Certificate Of Completion.
