Emerging Leaders

Giving Supervisors And Team Leaders A Launchpad To Success

About The Program

Today like never before, organisations need supervisors and team leaders who are highly effective and produce results through people.

Technical skills and experience on the job were often sufficient in the past, but having the knowledge and skills to manage yourself and others is also essential in today's business environment.

Many of the mistakes that supervisors make are simply because they have not been shown the right way at the beginning and therefore they develop bad habits. So why not get the ideas and processes right from the start?

Emerging leaders need to understand what they are aiming for, but more importantly they need to be equipped with the right skills and tools to achieve their objectives.

Over 4 x half-days expert Proteus facilitators will deliver virtual sessions exploring a range of topics, all focused on giving future leaders a launchpad to success.

This program is also delivered as a face-to-face event over 2 x consecutive days.

All of our facilitators are experienced in leadership and management across a diverse range of industries.

They deliver this program in a professional, relaxed and fun-filled way and their motivational, non-threatening and supportive approach is one of the main reasons people choose to learn with Proteus Leadership.

Proteus facilitators are also committed to ensuring that participants leave the program not only with a better understanding of how to lead and manage people, but with the practical skills required to make it happen.

This is a very practical and dynamic program that will ensure emerging leaders have a greater chance of success and feel an enormous sense of achievement as they grow into their roles.

All Face-To-Face programs will be conducted in accordance with the current Covid-19 regulations.

If we are unable to conduct the program Face-To-Face, due to Covid-19, it will revert to a virtual program
