Creating A *Positive* Workplace Culture

How To Lead Robust, Resilient, No-whinge, Solution-Focused Workplaces

2020

ONLY
\$449
pp + GST

Brisbane - 3 September

Program Information

Creating Positive Cultures is about giving people the skills and permission to destroy dysfunction, kill off negative influences and allow space for all your positive people to shine and thrive.

Culture is all about your behaviours, it is what to do. So great leaders and workplaces don't allow their culture to happen by default, they design it together by agreeing to operate above the line in a positive, professional and proactive way.

This allows for a psychologically safe space to innovate, stay relevant, to fight clean, to develop resilience, gratitude and a growth mindset, while giving staff permission to call people out on any toxic behaviours.

This results in a self-regulating culture where people celebrate achievements while creating great relationships, products and services.
