LEADERSHIP
creating great leaders

About The Program

A leader's level of performance is primarily driven by how prepared they are to grow personally and professionally, and most of this growth comes about as a result of the way they think.

This unique program is designed to provide leaders with the skills and opportunities to develop the way they think, and therefore perform more effectively as a leader.

Leading Innovation & Strategy is about assisting leaders and their teams to think in new ways, to challenge the status quo and to see a bigger and better picture for the future.

Over 4 x half-days experts Proteus facilitator will deliver 4 virtual sessions exploring a range of topics, all focused on preparing leaders to better lead change, innovation and growth in their workplaces.

These virtual sessions combined with 8 weekly digital challenges, makes it one of the most practical and relevant leadership programs available.

The outcomes for leaders are tangible and can be applied back into the workplace immediately. Participants will learn how to:

- Generate new ideas and processes for action
- Better navigate chaotic and rapid change
- Build their leadership credibility
- Understand the new and evolving marketplace
- Create a culture of innovation
- More effectively influence stakeholders
- Move from an operational to a strategic mindset
- Lead the implementation of transformational change

This program is suited to those leaders who are passionate about improving performance and/or responsible for rolling out change.

The program is not only for individuals, but has also been developed for teams that are working together to drive growth and innovation in their workplace.

This is not just another training program, but is truly a leadership experience that will change the way you think about what you do and how you create your desired future.

"An organisation can only grow to the level its leaders are prepared to grow to."

Digital Evaluation

2. Virtual Sessions

Participants will attend four virtual sessions and will be provided with an extensive program manual. Our expert facilitators will work with participants to get the most from these sessions.

3. The Digital Challenge

After completion of the virtual sessions, participants will be required to complete the digital evaluation.

Participants will then receive a weekly challenge by email, for the next 8 weeks, that will allow them to log in on the device of their choice and complete their challenges.

At the end of the 8 week period, all submitted responses will be automatically populated to create a Live IT! Challenge Document.

Once this document is complete and has been downloaded, then participants will be able to print a personalised Certificate of Completion.
