Emerging Leaders

Giving Supervisors And Team Leaders
A Launchpad To Success

About the program

Today like never before, organisations need supervisors and team leaders who are highly effective and produce results through people.

Technical skills and experience on the job were often sufficient in the past, but having the knowledge and skills to manage yourself and others is also essential in today's business environment.

Many of the mistakes that supervisors make are simply because they have not been shown the right way at the beginning and therefore they develop bad habits. So why not get the ideas and processes right from the start?

Emerging leaders need to understand what they are aiming for, but more importantly they need to be equipped with the right skills and tools to achieve their objectives.

Over 4 x half-days expert Proteus facilitators will deliver 4 virtual sessions exploring a range of topics, all focused on giving future leaders a launchpad to success.

This program is also delivered as a face-to-face event over 2 x consecutive days.

All of our facilitators are experienced in leadership and management across a diverse range of industries.

They deliver this program in a professional, relaxed and fun-filled way and their motivational, non-threatening and supportive approach is one of the main reasons people choose to learn with Proteus Leadership.

Proteus facilitators are also committed to ensuring that participants leave the program not only with a better understanding of how to lead and manage people, but with the practical skills required to make it happen.

This is a very practical and dynamic program that will ensure emerging leaders have a greater chance of success and feel an enormous sense of achievement as they grow into their roles.

1. Getting Started

On registration, participants will receive confirmation of their booking followed by a second email 2 weeks before the program with a password and link for the program portal.

Participants will be asked to create their profile and read and action any program prerequisites before participating in the training sessions.

2. Training Sessions

Participants will attend either 4 x virtual sessions or 2 x face-to-face sessions and will be provided with an extensive program manual. Our expert facilitators will work with participants to get the most from these sessions.

3. The Digital Challenges

After completion of the training sessions, participants will be required to complete the digital evaluation, which will unlock the digital challenges.

Participants will then receive a weekly challenge by email, for the next 8 weeks, that will allow them to log in on the device of their choice and complete their challenges.

At the end of the 8 week period, all submitted responses will be automatically populated to create a Live IT! Challenge Document.

Once this document is complete and has been downloaded, then participants will be able to print a personalised Certificate of Completion. Participants will also receive a badge that they can share on social media and display in their profiles.
