MOVING FROM MATE TO MANAGER

The Power of Understanding Workplace Relationships

2026/2027

PROTEUS Virtual

"One key take away that I got from this workshop was about moving from "Mate to Manager". This is something I realised when I stepped into a Senior Role. There's a difference and time when you can act as a mate however need to act as a manager at the right times as I tend to get distracted by the differences between these two."
Mimi Nguyen

"The active listening components and the Mate To Manager aspects really interested with me. I believe there was some really useful tools I can use to implement in my day to day workings."
Tony Podolak

Program Overview

Today like never before, organisations need supervisors and team leaders who are highly effective and produce results through people. Technical skills and experience on the job were often sufficient in the past, but having the insights and skills to move from 'Mate to Manager' is essential in today's workplaces.

Many of the mistakes that supervisors make are simply because they have not been shown a better way at the beginning and therefore they can develop bad habits. So that is why we want to get the ideas and processes right from the start?

This program is both practical and dynamic. It has been designed to give you the best chance of success as you grow in your leadership role.
