# Webinars

**Webinar 1** Tuesday, 21 April - 11:00am - 12:00pm (AEST)

## You're not unsafe - You're just uncomfortable

*Stop confusing discomfort with danger. Stretch is not stress.*

In a world increasingly obsessed with comfort and caution, we're losing our tolerance for the very thing that drives growth - discomfort. This provocative session challenges the rising misuse of feeling 'psychologically unsafe' as a shield against feedback, accountability, and improvement. Great teams don't retreat from challenges. They normalise discomfort and redefine psychological safety for positive engagement and innovation, not avoidance.

- Unsafe vs Uncomfortable
- Stop Weaponising 'Psychological Safety'
- Embracing Discomfort as a Superpower for Growth
- Taking 100% Personal Responsibility
- Moving into the Growth Zone

## Having your say - doesn't mean you get your own way!

*How brave conversations build influence - not noise.*

We talk a lot about giving people a voice but being heard doesn't mean getting the final word. In many teams, voices either go missing or become combative. This session explores how emotionally intelligent teams communicate with courage and respect without confusing contribution for control or retreating into silence. Because real influence isn't about being silent or loud, it's about being considered, connected, and willing to engage even when you don't get your own way.

- Finding Your Voice
- Respectful Dissent is Healthy
- Being Brave, Not Brutal
- Disagreeing Without Disengaging - No Sulking, No Sabotage!
- Earned Influence Over Entitlement

*Debunking the busyness myth.*

Being truly present, focused, and delivering the right results is one of the biggest challenges of modern work and a genuine superpower for those willing to master it. In a culture where busyness has become a badge of honour, this session calls out the Busyness Myth and replaces it with productivity principles that stick. Learn how to build habits that protect your time, energy, and focus while driving the outcomes you're really measured on.
