MULTI-SESSION PROGRAM

LEADING INNOVATION & STRATEGY

Moving Yourself And Your Workplace Towards Exceptional!

ABOUT THE PROGRAM

A leader's level of performance is primarily driven by how prepared they are to grow personally and professionally, and most of this growth comes about as a result of the way they think.

This unique program is designed to provide leaders with the skills and opportunities to develop the way they think, and therefore perform more effectively as a leader.

Leading Innovation & Strategy is about assisting leaders and their teams to think in new ways, to challenge the status quo and to see a bigger and better picture for the future.

Over 4 x half-days experts Proteus facilitator will deliver 4 virtual sessions exploring a range of topics, all focused on preparing leaders to better lead change, innovation and growth in their workplaces.

These sessions will be supported by a 1 hour launch, pre-program and 1.5 hour Coaching post-program.

The outcomes for leaders are tangible and can be applied back into the workplace immediately. Participants will learn how to:

- Generate new ideas and processes for action
- Better navigate chaotic and rapid change
- Build their leadership credibility
- Understand the new and evolving marketplace
- Create a culture of innovation
- More effectively influence stakeholders
- Move from an operational to a strategic mindset
- Lead the implementation of transformational change

This program is suited to those leaders who are passionate about improving performance and/or responsible for rolling out change.

The program is not only for individuals, but has also been developed for teams that are working together to drive growth and innovation in their workplace.

“The concept of Flip your Thinking will play a big part in my leadership style after this course. I also gained a lot from “How to Influence”, the structured approach has given me a great set of guidelines to use in a management role.
